

Eeliya Nayeri

Software Developer | BSc Computer Science Honours (First Class)

Kent, UK | +44 7988 2926 76 | eeliya.nayeri@gmail.com | eeliyanayeri.com | github.com/eeliya-hub

Profile

Detail-orientated, first-class Computer Science graduate with experience developing full-stack applications, mobile apps, and API-based systems through both academic and personal projects. I have built a strong foundation of core software development principles, RESTful APIs, debugging and version control using Git. Focused on building well-structured applications with clear architecture, attention to detail in UI and UX and a strong emphasis on thorough testing and reliability. Currently seeking a graduate role in software development or test automation where I can apply and develop my technical skills within a collaborative engineering team.

Education

BSc (Hons) Computer Science – First Class

Sep 2023 – Jun 2026

University of Westminster

Key modules: Applied AI, Machine Learning & Data mining, Mobile Native App Development and Server-Side Web Programming

A Levels & GCSEs

Sep 2018 – Jul 2023

The Norton Knatchbull School & The North School

Completed 3 A-Levels and 11 GCSEs achieving high grades in the fields of Computer Science and Mathematics

Experience

Customer Advisor – B&Q

Oct 2021 - Present

Customer-facing role in a fast-paced retail environment providing customer service and product support. Developed strong communication and problem-solving skills whilst working in a team setting.

Aston Martin F1 & Cognizant – Ideathon

June 2026 – Jul 2026

Worked as part of a team in the AMF1 Ideathon, contributing to the design and development of an AI-driven solution that focuses on increasing fan engagement. Developed strong project management skills as well as collaboration and presentation skills to present the solution to a panel of AMF1 stakeholders and engineers.

Foundermatcha – Software Development Internship

May 2026 – Jul 2026

Completed a two-month internship as primarily a UI/UX developer for a startup, contributing to the development of early-stage software features. Worked on rebuilding and refining interfaces within a cross-functional team, gaining exposure to collaborative software development workflows and multi-role teamwork.

Fujitsu WorkX – Work Experience

Jul 2022 – Jul 2022

Short work experience programme, exploring different areas of Fujitsu's business including cyber security and quantum computing. Engaged with interactive learning activities as well as sessions with industry professionals.

Skills

Languages

Python – JavaScript – Dart – Swift – Java – SQL – PHP – HTML – CSS

Frameworks

React – Node.js – Express – Django – Flutter – SwiftUI – Tailwind CSS – Firebase

Tools & Software

Git – GitHub – Figma – Postman – VS Code – Xcode – Android Studio – Google Cloud

Practices

REST API Design – MVVM Architecture – Responsive Design – Database modelling – CI/CD

Personal Skills

Leadership – Communication – Team Collaboration – Project Management – Problem Solving
